Overall student visa trends May 2017

Acronyms

FSV – First-time student visas – The number of visas issued to students for the first time. Visas for dependants and Section 61 applicants are excluded since these people do not fall under the definition of international students.

RSV – Returning student visas – The number of visas issued to students subsequent to the first issuing of visas. Visas for dependants and Section 61 applicants do not fall under the definition of international students.

TSV – Total student visas – The number of visas issued to students, either for the first time, or after the first time. Declined visas are not included. Visas for dependants and Section 61 applicants are excluded since these people do not fall under the definition of international students.

VSV – Valid student visas – The number of people holding a student visa and/or permit at the beginning of each calendar month. Visas for dependants are excluded. The presented figures can be interpreted as the number per month of international students with authority to study in a course of three or greater months in duration. This does not mean that these students are present in New Zealand for the entire duration of their visa.

YTD – Year-to-date.

Sectors

ITP – Institutes of Technology and Polytechnics.

PTE – Private Training Establishments, including Private Training Establishments, which receive government funding. Schools – Includes all students in primary, intermediate and secondary schools.

Additional notes

• Results for YTD this year will be compared to the YTD 2016 unless otherwise stated.

International student

International student – Students who are non-residents of New Zealand and Australia who:

- · have entered into New Zealand expressly with the intention to study
- have enrolled with a New Zealand provider offshore, where the educational programme is delivered in-market.

Rule 18 – Rule governing English Language requirements for certain international students. More information about this is available on http://www.nzqa.govt.nz/about-us/our-role/legislation/nzqa-rules/nzqf-related-rules/programme-approval-and-accreditation/8/18/ Section 61 – Visas issued to people who are currently in New Zealand outside of Immigration NZ policy.

Scope of this document

- This dashboard excludes dependants, applicants under Section 61, and applications for variation of conditions.
- There is a potential delay between students having their visas approved and their actual entry into New Zealand, therefore, the figures shown here may not necessarily represent the actual number of students currently in New Zealand.
- VSV are the best real-time indicator of international students present in New Zealand. A VSV indicates that students are able to be present in New Zealand. VSV do not include students who are in New Zealand on working holiday visas or visitor visas, and not all students with VSV are present in New Zealand for the entire duration of their visas.

The student visa dashboard does not include all international students:

- Student visas only capture students who enter New Zealand with a student visa. These students are mostly those who are planning to study for more than three months.
- Students who undertake a course less than three months in duration are not required to enter on a student visa. Students who do choose to enter on a visitor visa (usually from visa-free nationalities) are not captured in this dashboard.
- Working holiday visas allow students to study for up to six months. Those who enter New Zealand on a working holiday visa and plan on taking up this option are not included in this dashboard. These factors will affect PTE numbers.

- VSV numbers for 1 June 2017 are up 2% (+1,130) on 1 June 2016, which suggests enrolments will be slightly up on 2016^[1].
- 2. TSV for the YTD have increased 6% (+2,541) from the YTD 2016. This is despite TSV for both May and April being down when compared to the same months in 2016. A combination of faster visa processing times and increased university visas front-loaded visa numbers, while decreased PTE visas are now affecting overall TSV.
- 3. The number of university students with valid visas now exceeds the number of PTE students with valid visas.
- 4. Most key markets show TSV increases apart from India, Japan, Korea and Saudi Arabia which have decreased.
- 5. The India market continues to rebalance. Decreased PTE FSV (-47%, -882) and VSV (-42%, 4,800) point to a large decrease in India student numbers for 2017. This is despite increases in India university FSV (+46%, +155).
- 6. The Universities sector FSV grew by 19% (+850) compared to the YTD 2016.
- FSV increases for the YTD were in the universities (+19%, +850), schools (+11%, +312) and ITP (+7%, +192) sectors. The PTE sector declined (-6%, -398).
- Key markets with FSV increases YTD were China (+9%, +295), USA (+25%, +287), Viet Nam (+95%, +217), Brazil (+24%, +160), Chile (81%, +154) and Colombia (+50%, +152).

[1] VSV are measured at the first of the month. In this case 01 June 2017.

Comparison to previous years (cumulative)

TSV approved - cumulative

- TSV are up 6% for the YTD 2017 compared to the YTD 2016. This is despite decreases in visa numbers for April and May (faster processing times, a focus on processing increased universities visas and a downturn in PTE visas).
- FSV are up 3% on May 2016.

Valid student visas

- VSV were 73,305 as at 1 June 2017, which was a 2% increase (+1,130) compared to 1 June 2016.
- Compared to last June, universities (+11%, +2,659), schools (+11%, +1,551), and ITP (+2%, +257) sectors have all increased in VSV since the same day in 2016, while PTE (-20%, -4,545) have declined. The decline in PTE is due to rebalancing of the Indian market.
- The number of university students with valid visas now exceeds the number of PTE students with valid visas.

Note: VSV are the number of valid student visas for New Zealand on the first day of the month. It is used as an indicator of student numbers. VSV doesn't differentiate between FSV or RSV. Students on a work or visitor visa are not captured by this dataset so total student numbers will be higher than this data set shows.

Trends by market

In order of appearance:

South East Asia includes: Brunei Darussalam, Cambodia, Indonesia, Laos, Malaysia, Myanmar, Philippines, Singapore, Thailand, and Viet Nam.

Latin America includes: Argentina, Bolivia, Brazil, Chile, Colombia, Ecuador, El Salvador, Guatemala, Mexico, Nicaragua, Panama, Paraguay, Peru, Suriname, Trinidad and Tobago, Turks and Caicos Islands, Uruguay, Venezuela, Cuba, Honduras, St Lucia, Costa Rica, Dominican Republic, Belize, Dominica, St Vincent and the Grenadines, Guyana, and Honduras.

Europe includes: Austria, Belarus, Belgium, Bulgaria, Croatia, Czech Republic, Denmark, Estonia, Finland, France, Georgia, Germany, UK, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Macedonia, Netherlands, Norway, Poland, Portugal, Romania, Russia, Serbia, Serbia & Montenegro, Slovakia, Spain, Sweden, Switzerland, Turkey, Ukraine, Yugoslavia, Kosovo, Armenia, Bosnia and Herzegovina, Albania, Andorra, Cyprus, Slovenia, and Monaco.

Middle East includes: Bahrain, Iran, Iraq, Israel, Jordan, Kuwait, Lebanon, Libya, Oman, Palestine, Qatar, Saudi Arabia, Syria, United Arab Emirates, and Yemen.

All markets

May 2017

- TSV have increased by 6% (+2,541) from the YTD 2016 to the YTD 2017.
- Most key markets showed TSV increases, apart from India, Japan, Korea and Saudi Arabia which have decreased.
- All sectors showed increases in both TSV and FSV, apart from PTE sector, which had a decrease in FSV (-6%, -398).

Tes level of

• All regions showed increases in TSV, apart from Hawke's Bay, Nelson and Taranaki, which were flat or declining.

China

May 2017

- TSV have increased by 11% (+1,708) from the YTD 2016 to the YTD 2017.
- FSV increased for all sectors, especially the ITP (+15%, 70) and PTE (+13%, +135) sectors.
- VSV for China increased by 15% (+3,208) as of 1 June 2017 compared to 1 June 2016, and now number 25,153.
- Should annual trends continue, FSV and TSV for YTD June 2017 may increase.

India

May 2017

- TSV for the YTD 2017 decreased by 8% (-661) compared to the YTD 2016.
- FSV declined by 17% (-632), attributed largely to a decline in the PTE sector that registered nearly half the amount (-882) of students as the YTD 2016.
- FSV in the university sector increased substantially (+46%, +155) as the market moves toward higher-level qualifications.
- VSV were 13,203 on 1 June 2017, a decrease of 26% (-4,529) from the same date last year. Most of this decrease comes from the PTE sector (-42%, -4,800).

Korea

May 2017

TSV for 2017 are stable (-4%, -98) compared to the YTD 2016.

TSV from Korea have decreased for the PTE sector (-144, -16%) and increased for the schools sector (+6%, +63) compared to YTD 2016.

The 25% (+61) increase in TSV for the Bay of Plenty was driven by schools.

There were 3,541 VSV on June 1 2017, which was an increase compared to the same date last year (+4%, +122).

Philippines

May 2017

- TSV for the Philippines have increased by 17% (+104) in the YTD 2017 compared to the YTD 2016.
- Most of the TSV increase is from FSV for the PTE (+17%, +71) sector.
- FSV have increased across most sectors, predominantly within the PTE sector (+16%, +55), suggesting increased Filipino students in the latter half of the year.
- VSV on June 1 2017 are 1,815, a decrease of 16% (-336) from the same date in 2016, due to a decline in VSV for PTE students (-34%, -549).

Europe

May 2017

- TSV for the YTD 2017 have increased by 8% (+183) compared to the YTD 2016. Growth continues to be underpinned by FSV for the universities (+14%, +87) and schools (+19%, +99) sectors.
- FSV for Italy have increased by 63% (+59) for the YTD, which was driven by increased secondary school FSV.
- FSV and TSV are expected to peak in June 2017.
- VSV for Europe have increased by 11% (+492) for 1 June 2017 when compared with the same day in 2016 to reach 5,134.

PTE

May 2017

ThinkNew

- PTE sector TSV decreased by 3% (-384) for the YTD 2017, almost solely attributed to a decline in FSV (-6%, -398).
- FSV have decreased by 6% (-398) compared to the YTD 2016. The FSV decrease for India (-47%, -882) has been softened by China (+13%, +135) and Colombia (+48%, + 127). The slight decline in FSV when compared to VSV (below) suggests a possible rallying in PTE student numbers in the second half of the year.
- VSV for PTE students were 22,388 on 1 June 2017, which was a 17% (-4,545) decrease on the same date last year.

Trends by region

Due to data improvement processes within Immigration New Zealand, there have been some changes to region-based data for visas.

Numbers in these slides may have changed from slides previously produced.

This data should be treated with caution, therefore the number and percentage changes should be considered approximates.

Auckland

May 2017

- Auckland has increased in TSV by 6% in the YTD 2017 compared to the YTD 2016 with strong increases in ITP (+21%, +575) and universities (+12%, +869) sectors.
- There was an increase in FSV for all sectors, excluding the PTE sector which declined (-7%, -360).
- With many university driven markets expected to increase in June 2017, Auckland, which is New Zealand's preferred university destination may see an increase in FSV and TSV from this sector.
- VSV for Auckland was stable on 1 June 2017, decreasing by 2% (-882) since 1 June 2016 to reach 43,225.

Canterbury

NEW ZEALAND

May 2017

- There has been a 7% increase in TSV in the 2017 YTD compared to the YTD 2016. This is driven by an increase in RSV across all sectors. FSV are flat. The increases in FSV for the universities (+5%, +30) and schools (+32%, +82) sectors were balanced by decreased FSV for ITP (-32%, -77) and PTE (-13%, -78) sectors.
- The universities sector has been increasing in 2017, and is expected to continue. This may stabilise the decrease in FSV.

In brief

• The number of VSV for Canterbury on 1 June 2017 was 6,962, which is stable compared to 1 June 2016 (+3%, +224).
